APPENDIX A

APPENDIX B

CERTIFICATE

// Certificate letter must be printed on college letter pad (**only for final year**)

ACKNOWLEDGEMENT

// Few lines or words for appreciation or gratitude

ABSTRACT

// Write abstract of your project. Your abstract should summarize your problem, way of solving that problem and result you achieved. One paragraph will be sufficient for Abstract (Maximum of 300 words)

CHAPTER 1

INTRDOUCTION

1.1 Background

// Write down background information of the project and introduce the measure functionalities and areas of the project. Citation required here.

1.2 Statement of Problems

// What is your main problem?

// What is the limitation of similar types of past projects?

1.3 Objectives

// List out the specific objectives to solve your problem.

1.4 Application

// Write down the applicable areas of your project.

1.5 Scope & Limitation

// State the scope of project and its limitation.

1.6 Report structure

// State structure of your report. Here you mention chapters and topics discussed inside them.

CHAPTER 2

LITERATURE REVIEW

// This chapter will contain the related theories and background for your projects along with previous works in this field.

// Case studies and survey of previous works or system can be included in this section.

// This chapter can be further divided into sub chapters if required.

CHAPTER 3

METHODOLOGY

Methodology should describe how your project is carried out. So, required system block diagrams or generic models along with system flowchart or program flowchart and algorithm/pseudo code should be mentioned here.

Process modeling, data modeling, database design, forms, reports and interface design can be included within this chapter.

Similarly, if you have verified your project or system then write down the different **performance parameters** you have chosen. For example, accuracy, precision, f1 score etc.

CHAPTER 4

RESULT & DISCUSSIONS

Inside this chapters write down the different tests or experiments you have performed to verify and validate your system.

You should mention different datasets which you have chosen for making test cases.

Each and every test or experiment should be clearly defined so that test cases, test scenarios are clearly understood. And tests should meet the objectives of your project.

You must show how your test results meet with your objectives. And if your result deviated from expected result then you must discuss the causes or errors.

Experimental data and test cases can be shown in tabular or descriptive form. Results of test can be shown either in tabular form or in some visually informative graph and chart.

Also, you need summary of results for further discussion.

CHAPTER 5

CONCLUSIONS & RECOMMENDATIONS

This chapter can be divided into 2 parts. In first part you mention conclusion of your project. In second part you can write the recommendation or further enhancement to improve your system.

J.K.Author (Date) ,'Title'(Edition), Publisher, Address

Website : 'Title', Retrieved From http:// [In text citation we use like (*author,date*)] \

Guideline

- CHAPTER 1 & 2 should have citation for references.
- References like Google.com or Wikipedia are not accepted. So, mention actual reference location.
- Report should be printed one sided A4 size.
- No headers and footers.

Margin : Top : 1.5"

Bottom : 1"

Left : 1.5"

Right : 1"

- Cover Page College Name heading : 16 Bold Times New Roman, Uppercase
- Cover Page Title : 14 Bold Times New Roman , Uppercase
- Chapter Heading : 12 Bold Times New Roman , Uppercase
- Topic Heading : 12 Bold Times New Roman , Capitalize
- Text : 12 Normal Times New Roman
- Bulleting must be done in numbers or alphabets.
- Type mistake and grammatical error is not acceptable.
- Avoid Plagiarisms
- Do not copy figures and block diagram directly. If you have use them then draw yourself or make citation if you copied them.
- Final report must be formatted with proper font-size and justification. And each chapter should be printed in a new page.
- Diagram and figure should be number like following
 - Figures and Images within chapter 2 can be shown as
 - Tables within chapter 2 can be shown as

Sno	Name	Mark
1	Ram	20
2	Shyam	30

**Faculty of Science and Technology
Gandaki University**

CERTIFICATE

This is to certify that the project entitled "**Bluetooth controlled Home Security System**" submitted byin a partial fulfillment of the requirements for the award of the Degree of Bachelor of Information Technology of Gandaki University, is a bonafide work to the best of my/our knowledge and may be placed before the examination Board for their consideration.

Panel of Examiners:

.....
External Examiner (Name)

.....
Project Supervisor (Name)

.....
Program Coordinator (Name)
